Fat Brain Toy Co.

Tridio Twist is a cleverly cunning cubical conundrum! Build. Players twist, shift and stack the Tridio cubes to build a two-dimensional structure in 3D. They combine and inter-connect the pieces and solve the visual challenges – all with a simple twist as they work through a puzzle book that features 48 visual challenges. This puzzle will test spatial insight and give players' brains a workout.

BSW Toy

3D Shrinky Dinks Shrinky Town play sets are the latest addition to the 3D Shrinky Dinks line. Shrinky Town combines the simple pleasures of a coloring book with the fun of making 3D Shrinky Dinks to create a colorful, customized play set ready for imaginative play. Available in three styles, Farm, Zoo and Downtown.

Find It Games

In the new Starry Night game, players look closely, shake, and turn this 3-D container shaped like a star to find 40 out of this world objects from Saturn to a satellite, plus some very down-to-Earth nighttime items from a sleeping bag to a mug of cocoa. Many of the items glow in the dark. A handy score pad is enclosed for players to check off as they find items. It's for ages 8 and up.
